

## Estates Cedar Fence

Post Spacing 8' O.C.

Cedar is naturally resistant to insects and decay, due to its distinct cell structure and natural organic compounds called thujaplicins. This aromatic lumber is the best natural choice for outdoor building. Cedar is also dimensionally stable wood that is far less likely to turn, twist, bend and bow like chemically coated pressure treated lumber. Natural preservatives in cedar also significantly outlast treated lumber. Properly finished and maintained cedar will endure longer than if left in its natural state.

### Components Per 8' Section

- 1- 6x6 10' Cedar-Gothic Topped Post
- 2- 2x4 8'- Cedar Top/Bottom Rails
- 2- 1x4 8'- Cedar Top/Bottom Fascia Rails
