## Ornamental Iron

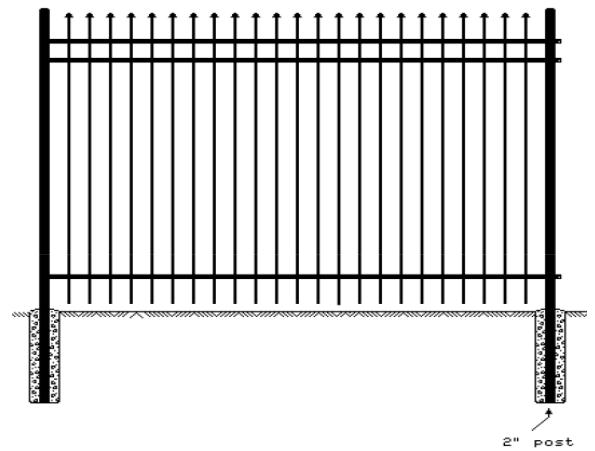

Majestic

Genesis

Classic

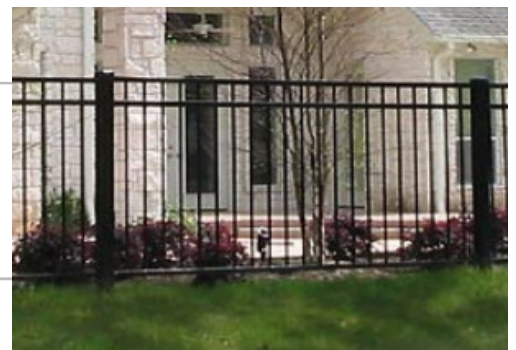

Post Spacing 8' O.C.

Montage Fencing from Ameristar® is a 2nd generation ornamental metal fencing product. The ready-to-hang pre-assembled fence panels are manufactured with technological advances that include the ability to follow sloping terrain, and allow for attachment to most concrete retaining walls and flat work. The total submersion 4-layer e-coat finishes carry a 20-year warranty and cover a steel substrate superior in strength to conventional exterior painted steel or aluminum fencing. Maintenance is easy and may simply require a rinse with a garden hose or basic cleaning with soapy water and a soft brush or rag to remove dirt and dust. Ameristar® Montage fencing complies with standard building codes required for pools.

### Components Per 8' Section

- 1- 2x2 or 3x3 Iron Post
- 1- 8' Ameristar® Iron Panel
- 6-Attachment Brackets

For additional information and measurements, please contact CFC Fences & Decks.
