Hole Drilling Form

of Holes: _____ Hole Depth: _____

Auger Size: 8" 10" 12"

Drill Date: _____

Name: _____

Address: _____

City: _____

Phone: _____

Getting Started:

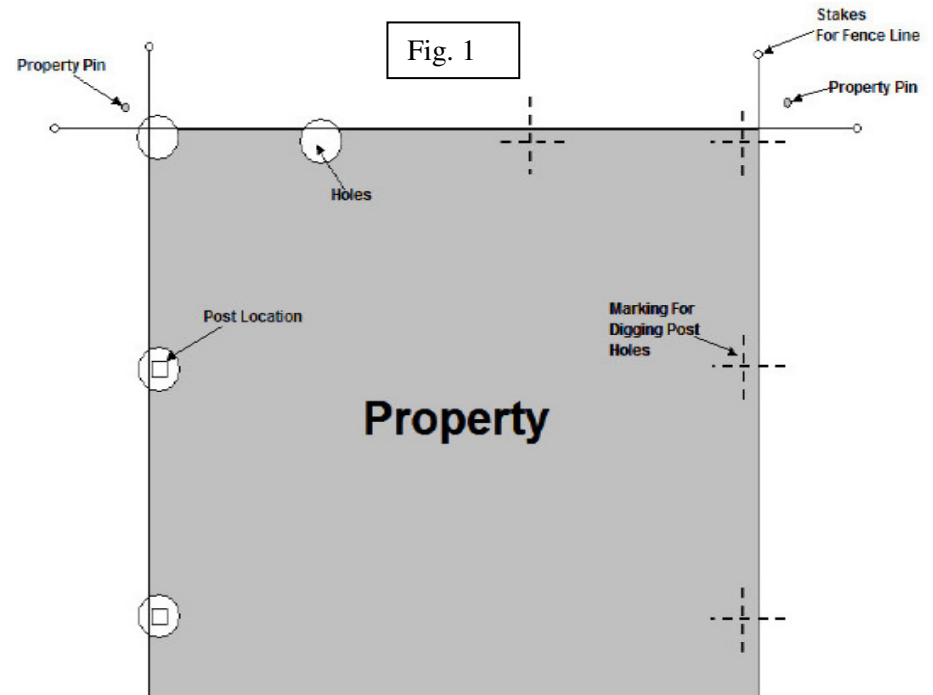

1. Stake & string fence lines. Drive stakes approx. 2 ft. beyond property pins so that stakes will not be disturbed when digging holes and approx. 4-5 inches inside of property pins to insure no encroaching of neighbor's property. **(See Fig.1)**

2. Mark location of posts. Spray paint a line perpendicular to the string every 96 inches on center for wood privacy and Trex fences (120" O.C. for split rail). *Spray an additional line (making a cross) 2 inches in from the string. **(See Fig. 1)**

***Note:** Laying out posts 8 feet on center may leave an odd section at the end. **For a more uniform look, fence lines may be all divided into even sections rather than all 8 ft. centers.** However post layout should not exceed 96 inches center to center (120" for split rail) or 8 ft. rails will be too short. Example: If fence line is 68 ft. long, posts would be spaced 90" on center.

CFC will drill all holes that are marked and accessible by tractor. CFC cannot drill holes that are within 2' of marked utility lines or holes next to homes or structures. Buyer will be responsible for proper hole placement and removal of loose dirt from drilled holes.

***Special Note:** Any buried sprinkler lines or other facilities located within one foot of marked holes may be damaged by digging. To avoid this, the facilities or fence location must be moved. Buyer is solely responsible for any and all damages that may be incurred.

Underground Facilities: Buyer is solely responsible for locating, staking, and clearing project area. CFC will notify the appropriate Blue Stakes Network to locate underground facilities. Buyer is solely responsible for location, marking and repairing, if damaged, any underground facilities that are not located and marked by Blue Stakes. If buyer elects to place any and/or all of the materials in an area encompassing a utility easement, buyer agrees to pay all costs incurred by CFC, including, but not limited to, removing, relocating, and/or repairing the underground facility.

Other Conditions: Buyer is solely responsible for locating and staking property points and fence lines. Buyer shall grant free access to work areas on the property or adjacent property where the work is to be performed. CFC shall not be responsible for incidental damage to driveway, walks, lawns and/or landscaping by performance of post hole drilling under this contract, including movement of workers and equipment. Buyer will insure that sprinklers are turned off for three days prior and during work. Buyer is solely responsible for damages sprinkler and/or irrigation lines. CFC will not be responsible for removal of any dirt including but not limited to dirt form excavation of holes. Buyer is responsible for obtaining any permits that may be required and/or compliance to any restrictive covenants that may exist.
